### PONDCRETE FREE LIQUID TESTING MODIFICATION

We have reviewed the letter from E. S. Goldberg to N. C. Aquilina dated August 23, 1989, regarding the pondcrete free liquids testing modification. The letter contains the Rocky Flats Plant response to our comments made on June 7, 1989, regarding these modifications.

We find the Rocky Flats Plant response to be acceptable. A surveillance of your modification will be conducted by the Defense Waste Branch in the near future.

If you have any questions, please contact Darrell M. Warren, Defense Waste Branch, at FTS 575-1282.
